

**Certificate of Compliance
for
Restriction of Hazardous Substances (RoHS)**

The European Union Directive 2002/95/EC Restriction of Hazardous Substances (RoHS) legislation restricts the use of certain substances in electrical and electronic equipment. This directive applies to all electrical or electronic products and their components placed on the market after July 1, 2006. The substances include Lead (Pb), Mercury (Hg), Cadmium (Cd), Hexavalent Chromium (CR⁺⁶), Polybrominated biphenyls (PBB), and Polybrominated diphenyls (PBDE).

Nor-Cote International, Inc. does not intentionally add or utilize any of the above mentioned heavy metals or brominated flame-retardants in any products manufactured at the Crawfordsville, Indiana facility, however not all products have been tested.

Based upon completed analytical testing*, all of the following Nor-Cote products comply with Directive 2002/95/EC.
