

June 12, 2015

Dear Valued Norcote International Customer:

We are pleased to inform you that the following listed LC Series UV Curable inks meet the “Halogens Free” guidelines (Cl & Br <900 ppm / Cl + Br <1500 ppm): Some of the below listed inks do contain halogens but are below the levels listed per IEC 61249-2-21. Testing was not completed on the inks. Information is based on raw material knowledge.

LC-012 Radiant Yellow
LC-016 Brilliant Yellow
LC-020 Radiant Orange
LC-022 Red
LC-023 Rhodamine Red
LC-024 Rose
LC-034 Permanent Blue
LC-049 Clear
LC-050 Process Blue
LC-060 Halftone Base
LC-070 Thinner
LC-972 Tactile Clear
LC-1019 Opaque Black

Norcote International, Inc. provides the above statement in good faith and reserve the right to change any or all of it should information to the contrary come to our attention. The information supplied does not absolve the customer from ensuring compliance to any local, federal or international regulations and/or legislation relevant to their particular application.

Should you have any questions regarding this information, please let us know.

Sincerely,

Jason B Greenlee
