

August 17, 2016

Dear Valued Norcote International Customer:

We are pleased to inform you that the following listed XL6 Series UV Curable inks meet the “Halogens Free” guidelines (Cl & Br <900 ppm / Cl + Br <1500 ppm): Some of the below listed inks do contain halogens but are below the levels listed per IEC 61249-2-21.

XL6-311
XL6-301
XL6-165
XL6-230
XL6-241
XL6-111
XL6-C1094

This information is based on raw material and supplier information only. Halogen testing has not been conducted on these inks.

Norcote International, Inc. provides the above statement in good faith and reserve the right to change any or all of it should information to the contrary come to our attention. The information supplied does not absolve the customer from ensuring compliance to any local, federal or international regulations and/or legislation relevant to their particular application.

Should you have any questions regarding this information, please let us know.

Sincerely,

Jason B Greenlee
